

EPS New and Improved Prescription Tracker

The improved prescription tracker allows you to trace the status and history of prescriptions.

www.hscic.gov.uk/eps/tracker

What's new?

- Search by NHS number, date range and prescription status

Practice and pharmacy can check the current status of a particular prescription and can advise patients with confidence.

New search by NHS number

Detailed search results showing:

- Claimed
- To be dispensed
- Repeat dispensing issue 1 of 4

Prescription ID	Status	Issue Date	Prescription Type
3543E6-Y90206-029A9Y	Claimed (0008)	22-Aug-2014 13:08:00	Acute Prescription (0001)

Benefits of the new prescription tracker

- Transparency to both prescribers and dispensers.
- Practice and pharmacy can check the current status of a particular prescription and can advise patients with confidence.
- Pharmacies can “cut and paste” a prescription barcode (GUID) into their dispensing system to retrieve a prescription.
- Help ensure nomination rules are followed, as it shows the nominated destination of a specific prescription and where a nomination has been changed.
- Allows pharmacies to double check that a claim has been submitted, which is particularly useful for expensive items.
