

Patient Led Ordering (PLO)

What to Do if You Have Concerns

Patient-Led Ordering of medicines (PLO) using the NHS App is a new process, and we understand that there may be challenges as it is implemented. The goal is for GP practice and Community Pharmacy teams to work collaboratively to address any issues that arise, ensuring the best outcomes for patients, general practice and pharmacy teams.

If you encounter concerns, please try to resolve locally by following the steps below:

- 1. Contact the GP practice** – Speak to the Practice Manager as a first step
- 2. Share PLO support materials** – Direct the practice to [resources](#) such as the Activity Rollout Planner
- 3. Seek additional locality support** – If needed, contact your Locality Head of Medicines Optimisation for further assistance

Locality	Meds Opt Generic Email	Head of MO	Med Opt Email
