

Fidaxomicin urgent ordering

Act promptly to avoid delays in starting treatment for C. difficile infection.

1 Order urgently

Order fidaxomicin tablets or granules for oral suspension through Alliance Healthcare. Check the expected delivery time and inform the patient or representative.

2 Check for a quicker delivery locally

If your next wholesaler delivery would delay treatment, contact nearby pharmacies to see whether they can order and receive fidaxomicin sooner. Help coordinate access for the patient.

3 Use emergency ordering if needed

If treatment is needed between Friday evening and Sunday evening, or on a bank holiday, call the free emergency ordering service.

0330 100 0449

Courier delivery to the pharmacy within 12 hours.

4 Alert the prescriber immediately

Contact the prescriber immediately if there are any difficulties obtaining fidaxomicin.

Brief the whole pharmacy team and share the NHS Greater Manchester letter.
